ACADEMIC ACHIEVEMENTS - 2022-23

Introduction

The 'Mansukhbhai Kothari National School, Pune, aims to be the Centre of Excellence in Education and various curriculum activities to challenge our students and bring out the best in them. We, at MKNS, endeavor to groom and educate our students by making sure that, they do not lack in any area, be it academics, sports, arts, fine arts, music, dance, co curricular activities, field trips, skill set training, project-based learning etc. through which they give of their best and be the best as they are the future of our nation.

The Principal, Mrs. Varsha Kokil is a keen enthusiast of skill based and experiential learning. She spearheads a great team of teaching staff highly capable of grooming the students not just academically but catering to all-round growth bearing in mind the challenging world that each student will soon step into. She is up to date with all the current teaching-learning trends and ensures to implement them in MKNS.

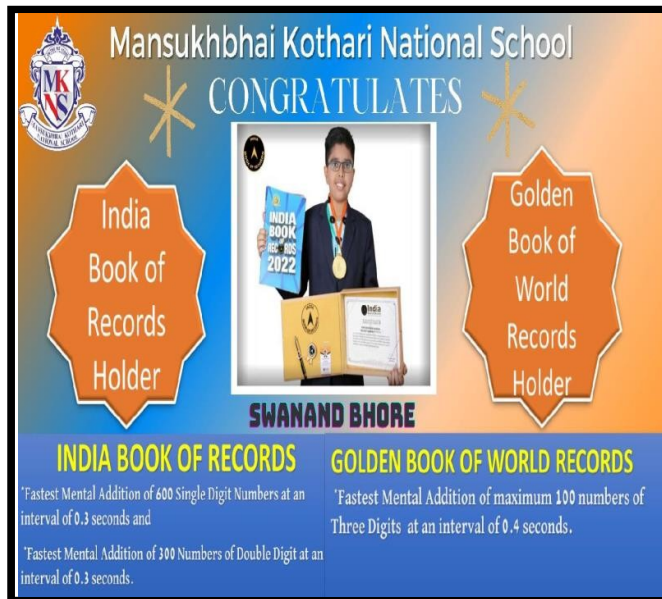

All in all the academic year was a grand success; most of the goals set were accomplished.

Academic Achievements – “All you need in life is ignorance and confidence; then success is sure.” Mark Twain.

ENVIRONMENT EDUCATION

➤ Plantation at Anandvan:

We at MKNS believe that if you want to bring a change, you have to be a change !!!

In today's time global warming has become a big problem and something must be done to stop or reverse it. With this vision we started with Tree plantation activity with the students of MKNS.

There is a very nice hill near MKNS. It is known as 'Anandvan'. Anandvan was just a barren land and people used to put garbage there. But our students with the help of a wonderful person there Kumar Uncle started tree plantation activity. Kumar uncle started with Urban Afforestation movement and our students enthusiastically participated in it. We started this activity 3 years back in 2019. Now it has become a mega movement.

Every Saturday our PE teachers and Class teachers take the students of various Grades to Anandvan. We have taken the students from grade 5 to grade 10 to anandvan quiet often. We have inculcated regular habit of going to anandvan and doing tree plantation in our students. Now this habit will be passed on to next generation. We have provided water tankers in the time of lockdown because of covid 19.

When we started this activity in 2019 it was a barren land now it has become a lush green hill where people can do morning walk. Bird can play in water and nest with peace. The trees there provide oxygen thereby improving the quality of environment. This is our humble contribution to reduce global warming. With this activity we are sending you message that every citizen of Pune city must contribute to climate change. It is our ethical responsibility.

➤ Organic Farming:

Organic farming is as an agricultural process that uses biological fertilisers and pest control acquired from animal or plant waste. Organic farming was actually initiated as an answer to the environmental sufferings caused by the use of chemical pesticides and synthetic fertilisers.

Here at MKNS, we have belief in learning by doing. Students worked hard and harvested about 30 kilograms of methi(Fenugreek leaves) which is about 122 bundles with each bundle weighing 400 grams, 2 kgs pf tomatoes, 1 kg of reddish and half kg of brinjals from our small organic farm and distributed among students to give experience of hard work sweet taste.

Different vegetables like cauliflower, cabbage, coriander and spinach were also grown in the next harvest. Every step from preparing soil to tending the vegetables to harvesting was done by the students with the assistance of teachers.

➤ Plastic Usage/ Eco-Bricks:

MKNS has always been imparting social values in students to make them responsible citizens of the country. Along with that our visionary principal ma'am Ms. Varsha Kokil who has mooted and inspired the two movements in our students of all the grades, through teachers for enthusiastically participating and volunteering in deposition of plastic waste found in their houses at a common collection point in the school and in making plastic Eco Bricks which can be reused to make furniture, garden walls and other structures.

The objective of this program is given below:

1. To inculcate habit of "3 R's", (Reducing, Reusing and Re-cycling) by collection of waste material, that are otherwise counted as useless and carelessly discarded, thereby affecting the landfill area.
2. Less of wrappers and plastic into dustbin.

A plan was prepared by the students to train the students in making eco-brick at home from plastic waste. Accordingly, a circular was issued in September month giving the details about how to make

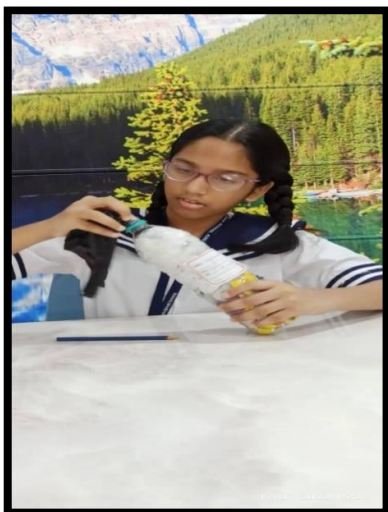

an eco-brick. The instructions were given as below:

- Wash the plastic bottle (PET) with detergent and dry it.
- Wet wrappers (of milk packets/milk product packets) or dry wrappers and any plastic bags. Wash wet wrappers and dry it completely.
- Fill the plastic bottle tightly with all the dry plastic wrappers by pressing as many items in the bottle as you can, thereby building an Eco-brick.
- The following link was also shared which gives graphic details of how to make an eco-brick. <https://www.ecobricks.org/how/>

This was followed by demonstration from class teachers and science teachers to the students.

The students from class 1-10 participated very enthusiastically and made eco-bricks. They compressed the plastic wastes into empty plastic bottles and filled them tightly till the brim. They submitted it to their respective class teacher.

The movement is still in progress. In the next academic session, it is planned to make some useful and creative items.

- Think outside the trash-Recycle!**
-
- A large pile of various discarded electronic toys and household items, including keyboards, toy cars, a robot, and other miscellaneous objects, illustrating the volume of waste generated by electronics.

➤ **Field Trip:**

MKNS had organized a visit to the esteemed campus of Suresh Naik Space Park for the students of Grade 6 to 10 on Wednesday, 12th October 2022.

The objective was to provide a platform for exposure to the students about the future career prospects and areas of research in Applied Sciences . The students enjoyed the learning experience through Moon walk, Zero Gravity, Space elevator roller coaster etc. Dressing up like an astronaut was a mesmerizing experience for the students. A blissful time was spent by the students with the lift of Chandrayaan, Adventure land and Robotics. The visit was informative and the students enjoyed it.

- **Model United Nations:** In our endeavor to train our students to play their roles as future world leaders in line with our MKNS core value of **Zero Conflict World** and **SDG goal no. 7** of Affordable and Clean Energy, we held a Simulation Session of MUN on Tuesday, 17th January 2023. The **Agenda for the session was UNEP - Maximization of Solar and Wind Energy.**
- The delegates discussed various measures undertaken by their respective Nations in this area.

Fair Trade: "Greatest threat to our planet is the belief that someone else will save it." - Robert Sawn.

At MKNS we celebrated '**Fair Trade Week**' from 5th of October till 11th October, 2022 to create awareness and develop support for 'Fair trade Logo' which assures no exploitative supply chain and fair prices to the farmers. Students of Grade 6-9 enthusiastically participated in all the activities and gained insight about the importance of Fair Trade.

It was an enriching session, as it enlightened the young minds and broadened their perspective, so as to decide for the appropriate course, college of University, Cialf provided a platform and ensured to provide a Student Educator Advisor to the students seeking guidance for admission.

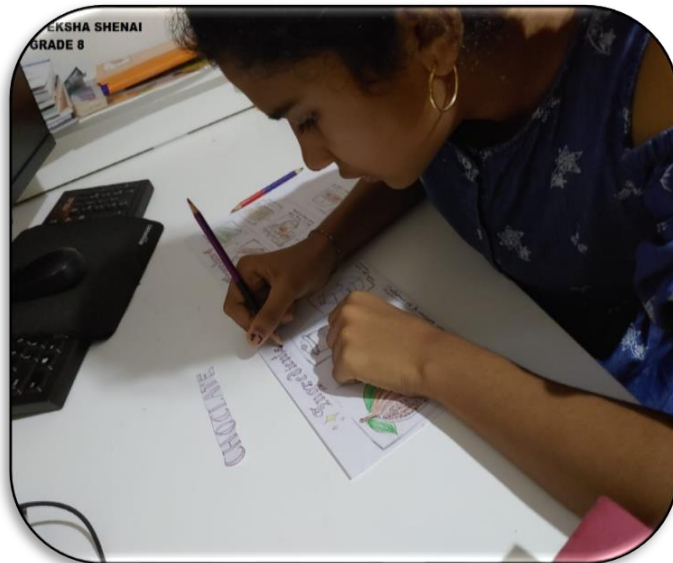

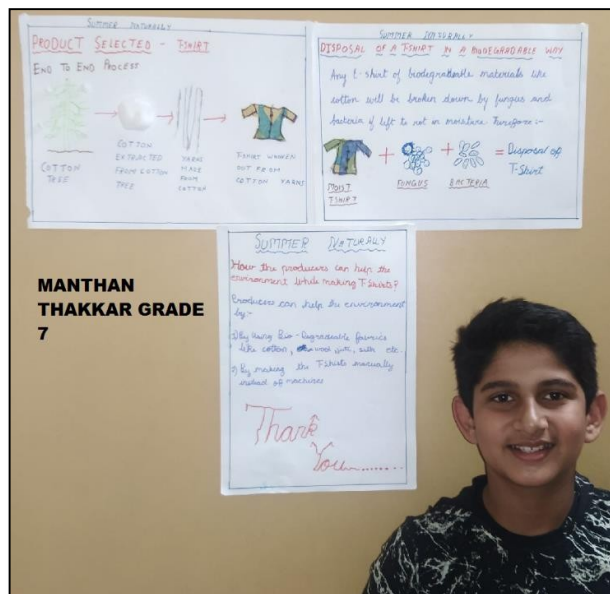

Zero Shadow Day

The lack of shadow is beautiful too. For people living between $+23.5^\circ$ and -23.5° latitude, the Sun's [declination](#) will be equal to their latitude twice - once during Uttarayan and once during Dakshinayan. On these two days, the Sun is exactly overhead at noon and will not cast a shadow of an object on the ground. This **Zero Shadow Day** is clearly different for different places on the earth. The main aim was to improve observational skills and scientific temperament in the students.

Summer Naturally 2022

MKNS conducted an inter school competition in May 2022 On behalf of **At Quest Sustainable Solutions**, to introduce the "**Summer Naturally**" program for 2022.

CAPACITY BUILDING PROGRAMS FOR THE TEACHERS

- ❖ **Design Thinking** – Design Thinking is a unique, creative and problem-solving approach that can be used to enhance the knowledge of the students and train them to think in differently. To attain this goal, Design Thinking Workshop was organised for the teachers at MKNS, on 1st April 2022. It was conducted by Mr. Anansh Shivprasad, Founder of Skill sphere Education, Mumbai. The teachers developed an insight in design thinking and used this approach ingeniously.

- ❖ **Robotics, AI & Coding Training** – To empower our students with Multifaceted skills and 21st Century skills as per National Education Policy the school is launching Robotics, AI, Coding and Tinkering Lab under the Club of Excellence with the aim to foster curiosity, creativity, and imagination in your minds; and inculcate skills such as design mindset, computational thinking, adaptive learning and physical computing. A three days workshop from 28th April - 30th April 2022, was conducted by Mr. Nishant Singh , resource person from Stemrobo to provide training and hands on learning experience to the teachers at MKNS.

- ❖ **Critical Thinking Training** – To broaden and enlighten the perspective, an interactive Training Session on Critical Thinking was conducted by Ms Varsha Kokil, the Principal of Mansukhbhai Kothari National School, on 7th June 2022. It was an enriching session as it covered the skills, challenges and approaches to guide and train the young minds. It was a platform to train the teachers to inculcate Critical Thinking in students. It was mentioned that the knowledge to impart and implement Critical Thinking in Teaching Learning Process is the prime requirement for overall development of one's personality.

❖ **Design Thinking and Creative Thinking** –

An effective Design Thinking and Creative Thinking Training session was conducted on the 8th of June by Mr. Anansh Shivprasad, Founder of Skillsphere Education, Mumbai, for the Teaching Staff of MKNS. It was an eventful training session packed with information and activities for the teachers. The focus and purpose of the training was to equip the teachers with innovative ways of using one design to solve various issues at the teaching/learning level. Problem solving and Logical reasoning were the main highlights of the eventful training session.

❖ CBSE Teachers' Training – Experiential Learning

CBSE Programmes for Teachers are the foundation, on which a quality education system rests, the Board, through its various endeavours, aims at improving teacher quality. The principles laid down in the National Curriculum Framework of Teacher Education and the Right of Children to Free and Compulsory Education Act, 2009 emphasise that continuous teacher training has a crucial role to play in the overall framework of quality education. As a part of this initiative a two-day Offline Training Programme on Experiential Learning, was conducted in Mansukhbhai Kothari National School, Pune. Teachers were trained on David.A. Kolb's Experiential Learning Theory, which is a powerful foundational approach to all forms of learning development and change, by the very competent trainers – Ms.Madhulika Bhupatkar and Ms. Savita Travis.

❖ Bloom's Taxonomy Workshop

A workshop on Bloom's Taxonomy was conducted by our Principal on 29th March 2023, expounded the tenets of Bloom's Taxonomy on 29 March, 2023, During this time our Principal expanded the tenets of Bloom's Taxonomy and insisted that the teachers implement the same in Lesson Plans and teaching-learning experiences.

Lesson Plans were discussed extensively, valuable tips were shared by the Principal. Teachers' concerns and difficulties were discussed in a healthy manner. A workshop of this nature was the need of the hour for a purpose well served.
